The screenshot shows the PRIZES.ORG website interface. At the top, there's a navigation bar with 'PRIZES.ORG BETA', a search bar, and links for 'Home', 'Create', and 'Tang'. On the right of the header are icons for notifications, messages, and settings.

The main area displays a contest titled 'Creative ways to earn extra money?' with a \$25 prize. It shows 62 entries, 12 days left, and 27 votes. A 'Broadcast to Participants' button is visible.

The contest details section includes tabs for 'Entries' (62), 'Contest Details' (selected), 'My Entry', and 'Comments'. Below this are three entries from 'Tony Loban' (Designer, 960 points). Each entry has a summary, a preview image, and interaction buttons ('Mark as read', 'Favorite', 'Comment', 'Eliminate'). The first entry is highlighted with a blue callout '1' over the 'Contest Details' tab.

To the right of the entries is a sidebar for 'Contest Creator' Tony Hsieh. It shows a message from 'Tony Loban', contest status (Category: Business Ideas, Latest activity: 2 hours ago), and options like 'Get Widget' and 'Report Contest'. There's also a 'Tags' section and a 'Top Prizes' section listing contests like '\$10K', '\$1K', '\$400', and '\$50'.

The bottom section shows a comment thread for the first entry. It includes a summary of the entry, a preview image, and a detailed description: 'An alarm clock that was set just like any other..But instead of just pressing snooze or turning it off...Your have to drag your finger in a certain pattern, or do a simple math problem so your brain has to work in the morning, and helps finger in a certain pattern, or do a simple math problem so your brain has to work in the morning, you wake up, or do a simple simple math problem so your brain has to work in the morning, and helps finger in a certain pattern ... See Full Entry'. The entry has 8 likes and 1 comment. A blue callout '2' is over the entry preview image.

The sidebar continues with a 'Hot Contests' section featuring '\$50', '\$20', and '\$50' contests. The bottom of the sidebar shows a 'TOP100' section for Tony Loban, listing 'Winning', 'Honorable', and 'Favorites' counts, along with a 'Write a comment ...' input field.

This screenshot shows the PRIZES.ORG website in creator view. Numbered callouts point to various UI elements:

- 11**: Top right corner of the header bar.
- 11**: 'Unread' status icon on the left of an entry card.
- 11**: 'Favorited' status icon on the left of an entry card.
- 11**: 'More' dropdown menu on the left of an entry card.
- 11**: 'Latest' dropdown menu on the left of an entry card.
- 11**: '30' dropdown menu on the left of an entry card.
- 11**: Action buttons (Mark as read, Favorite, Comment, Eliminate) on an entry card.
- 11**: 'View all 3 comments' and 'View creator's comments only' buttons.
- 11**: Profile box for Christy.
- 11**: Profile box for shaundalindsay.
- 11**: Profile box for Not selected.

Interaction Comments

1 Read entry

- Mark as read in case:
 - Favorited / Eliminated
 - Entry expanded / popup window opened
 - Click 'Mark as read'
 - Click on the entry area

2 Unread entry

- Mark as unread in case:
 - Click 'Mark as unread'

- A small bullet in each unread entry

3 Hover on the entry

- Add shadow effect when hover

4 Tooltip

- Add tooltip to those small icons without any description

5 'See Full Entry'

- Display only when the lines are over 5
- Expand / popup detailed content

6 Entry status icons

- Add hover style to 'comment' and 'flag' icons
- Flagged icon display only when the number over '0'

7 Action buttons

- Display when hover on the entry area

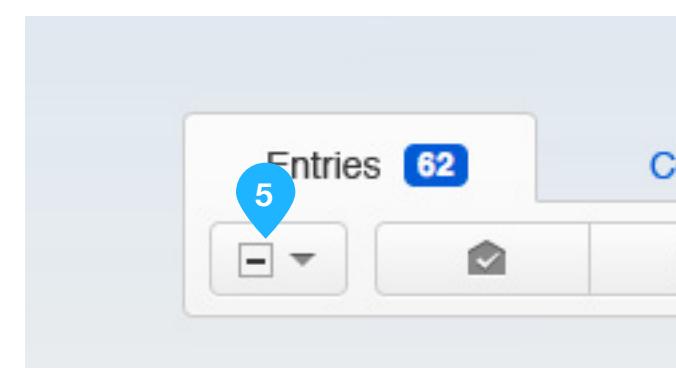

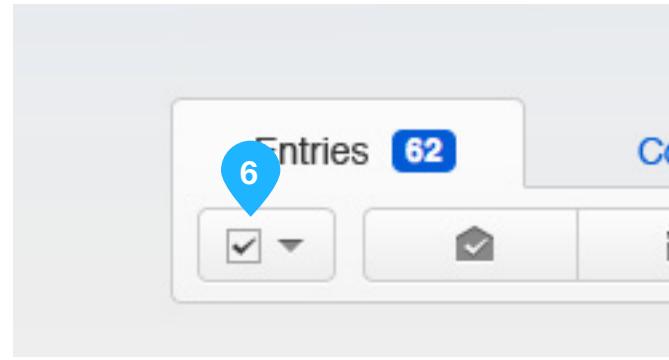

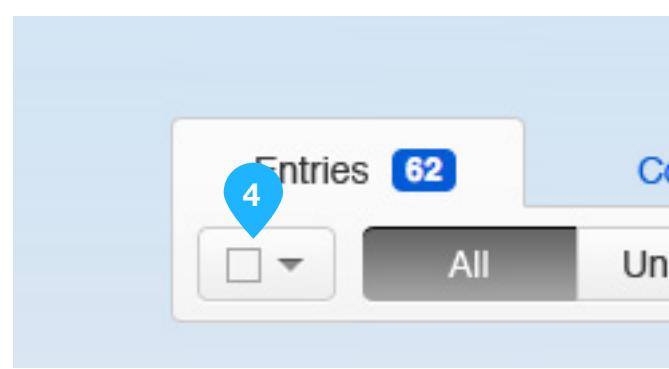

8 Action buttons in creator view

9 Action buttons in normal user view

10 Action buttons in submitter view

11 Fixing position

- Sorting bar, profile box & pick winner box should be fixed in place when they're scrolling out of the page

Interaction Comments

- 1** Sorting bar in creator view
- 2** Sorting bar in other user view
- 3** Multiple actions
 - Display only 1 or more entries are selected
 - Change back to filter buttons if none selected
- 4** None entry selected
 - Select all when click on check box, release selector if click again
 - Show dropdown options when click on other area
- 5** Part of entries selected
 - Display if part of entries are selected, release selector if click again
- 6** All entries selected
 - Display if all entries are selected, release selector if click again
